

LA COCINA DE

LOTERIA! GRILL - FAMILY PACKS INSTRUCTIONS – Revised 5/29/20

UPON RECEIVING - Keep all items in your refrigerator until you are ready to heat and serve.

Your order was packed taking safety first for you and for our team.

This sheet has instructions for handling the items you ordered.

Always re-heat to temperatures of at least 145 ° F.

Thank you so much. We sure hope you enjoy it.

ENCHILADAS

Enchiladas and Salsa are sent separately. Combine these just before baking.

Pre-heat oven to 350° F. Remove plastic lid from the platter. Cover the Enchiladas with Salsa. Add the Cheese and finish by drizzling the Crema over the Enchiladas. Cover the platter with foil and bake for 20-25 minutes, until the internal temperature reaches at least 145° F. Remove the foil, and bake for 5 minutes more, until the Crema and Cheese begin caramelizing.

For Enchiladas with Mole – Bake Covered for 20-25 minutes, until the internal temperature reaches at least 145° F. Do not bake uncovered. Finish with Sesame Seeds when you are ready to serve.

TACO KITS AND SIDE VEGGIES PLATES

Our Veggie and Taco Kit containers are oven-safe to 200° F, and they are also microwave-safe.

Oven Heating Instructions in OUR containers. Pre-heat oven to 200° F. Open the plastic lid to add 2 teaspoons of water to the food before heating. Use the lid to cover the food. Leave a small air gap, and heat in the oven for 30-40 minutes, or until the internal temperature reaches at least 145° F, stirring once or twice in the process so the food heats evenly.

Oven Heating Instructions in YOUR containers. Pre-heat oven to 350° F. Transfer the food from our container into yours. Add 2 tsp. of water and heat (covered) for 15-25 minutes, or until the internal temperature reaches at least 145° F, stirring once or twice in the process, so the food heats evenly.

Pan Heating Instructions. Place a large pan over a medium flame. Remove the Veggies from the container and place into pan. Add 2 tsp. of water and heat on medium flame for 15-20 minutes, or until the internal temperature reaches at least 145° F, stirring once or twice in the process.

Microwave Heating. Remove the plastic lid and heat the container in the oven for 3-4 minutes, or until the temperature reaches at least 145° F, stirring a couple of times in the process so the food warms evenly.

PAR-COOKED TORTILLAS

Our Partially-cooked Tortillas are ready to finish just before eating. Place tortilla on a griddle or comal over medium/high flame. Cook on one side for 30 seconds and flip.

Repeat this twice, until they puff up. Serve hot.

Buen Provecho!
